## RESEARCH — RENEWAL — RESULTS

## Celebrating Over 10 Years of Product Excellence

Since 1994, Dreamous Corporation, USA has been at the forefront of developing innovative, all-natural, premium-quality health and beauty products.

Dreamous is at the vanguard of anti-aging and health. Our staff of experienced doctors and scientists have kept Dreamous on the leading edge of research in the areas of anti-aging, homeopathy, nutrition and health.

At Dreamous, this is accomplished by continually developing and using the latest technologies to conduct ongoing research and development projects. All Dreamous products are manufactured under strict guidelines that often exceed FDA requirements.

Dreamous Corporation is a Golden Rule company. We proudly allocate a portion of our profits to worthy social and environmental causes.

Our mission is to make the impossible possible using advanced technology to offer the most effective, all-natural wellness products available anywhere, at any price.

## FROM OUR PRESIDENT

“What I enjoy most at Dreamous is hearing the many testimonials from our customers on how effective our products are and how they have made a positive difference in people’s lives by helping them feel and look younger.”

—Susan Negus, Ph.D.

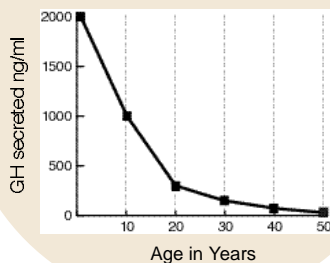

## WHY WE AGE

Why do we age? How can we prevent it? These questions have baffled scientists for centuries. Only now has modern research determined what causes the aging process—and how to combat it. Indeed, the human body may hold the key to its own rejuvenation. Once we reach our early twenties, our pituitary gland significantly reduces its production of growth hormone (GH). This hormone, which contributes to our vitality when we are young, is also essential to our well-being as we age.

## SIGNS OF AGING

It's more than just gray hair and wrinkles:

- Decreased energy
- Sexual dysfunction
- Poor muscle tone
- Weight gain or loss
- Lack of sleep
- Memory loss
- Cellulite
- Wrinkles
- Sagging skin
- Thinning hair
- Slow healing of wounds
- Lack of enthusiasm

## STATE OF THE ART INNOVATIONS

By supplementing the body's own HGH production, incredible results have been reported, including these health benefits:

- Increased energy
- Prolonged stamina
- Heightened libido
- More restful sleep
- Sharper eyesight
- Enhanced memory
- Improved muscle tone
- Better digestion
- Loss of excess weight

## GROWTH HORMONE & CLINICAL STUDIES

---

Over 30,000 studies document the positive effects of recombinant HGH. However, it was not until the early 1990's, when Dr. Edmund Chen, M.D., J.D., devised a low-dose, high-frequency regimen, that GH's greatest benefits were realized. A study by Dr. Chen and Dr. Leon Cass Terry, M.D., Ph.D., Pharm.D. utilizing low-dose, high-frequency HGH injections, revealed stunning results throughout the test group after just six months:

- 72% lost body fat
- 88% increased muscle strength
- 71% had improved skin elasticity
- 61% reported reduced wrinkles
- 38% experienced new hair growth
- 71% improved healing capacity
- 75% increased sexual potency
- 62% alleviated depression
- 39% reduced hot flashes
- 84% had increased energy
- 67% had better emotional stability
- 62% increased memory retention
- 73% improved resistance to illness

## THE DREAMOUS DIFFERENCE

---

Dreamous Hormonegenic® HGH is homeopathic — meaning, it employs potency concentrations for maximum safety and efficacy.

As word of HGH's effectiveness continues to spread, more and more companies are offering "growth hormone" products. Yet only Dreamous Hormonegenic® homeopathic growth hormone benefits from all these innovations:

- Every Hormonegenic® product is produced in an FDA-certified laboratory, in adherence to the FDA's strict GMP manufacturing standards, to ensure your safety and peace of mind.
- Only recombinant HGH, which is an exact genetic duplication of human growth hormone (191 amino acid chain), is used in Hormonegenic® products. We do not use animal GH, as some other manufacturers do.
- Hormonegenic® GH has been tested and shown to be safe from negative toxicity, mutagenicity, and carcinogenic activity.
- Our state-of-the-art filtration system purifies the air in the lab. There is no fluorescent lighting, which can compromise the ingredients.
- All products are hand succussed (energetically activated) to avoid exposure to any harmful electromagnetic activity from machines or motors.
